SC Chamber of Commerce Office, Columbia, SC

OSHA CARD

Has it been more than three years since you last attended this course?

Be aware that although the OSHA 10 & 30 cards don't have an explicit expiration date, Federal OSHA no longer allows lost cards to be reissued after three years from the date of class completion.

Is it time for you to take a refresher course? REGISTER TODAY!

SOUTH CAROLINA
CHAMBER OF COMMERCE

KEEP YOUR COMPANY HEALTHY, SAFE, AND PRODUCTIVE WITH OSHA SAFETY TRAININGS!

These trainings have been designed to arm you with the skills and information you need to show your employees – and OSHA inspectors – your organization's commitment to safety. You'll learn:

- how to minimize your organization's exposure to costly penalties and fines;
- essential skills to assess the effectiveness of your overall safety programs and to determine proper levels of compliance; and
- how to reduce downtime and workers' compensation claims.

WHY ATTEND?

The 1910 General Industry Standards contain more than 17,000 safety laws – do you know them all? These trainings provide up-to-the-minute information on the latest general industry changes in OSHA regulations and standards. ***With one serious violation costing $12,934 in 2018, these courses pay for themselves many times over!***

OSHA conducted over 31,000 inspections in 2016 – don't be caught unawares this year. Anyone responsible for the safety of employees should attend, including:

- Human Resources personnel
- Healthcare supervisors
- Maintenance supervisors
- Industrial engineers
- Lead personnel
- Plant managers
- Production managers and engineers
- Safety professionals

ABOUT THE SPEAKER

The Southeastern Chapter - National Safety Council (SCNSC) was organized in 1961 and began as a response to the growing concern to the number of people being killed and injured in collisions in the Charleston area. From the beginning, the Council has been a chartered Chapter of the National Safety Council. SCNSC has consistently worked on promoting safety education and public awareness and is dedicated to reducing injuries, deaths, human suffering and economic loss caused by accidents. The Council, a volunteer, non-profit organization, seeks participation of citizens in community, industry and government in the accomplishment of our shared goal… a SAFER South Carolina.

COURSE DETAILS

Dollar for dollar, the 10/30-Hour OSHA courses are the best investment in safety and health on the job.

Job Safety Analysis Training | November 13, 2018

ABOUT THIS COURSE

The SCNSC Job Safety Analysis (JSA) course offers a proven process for controlling operating hazards and costs. You'll learn how to develop and manage a JSA program and gain a better understanding of your role in making it effective.
Through discussions, demonstrations and exercises, you'll learn how to dissect processes in your operation and eliminate or reduce hazards inherent with these processes. You'll also learn how to enlist participation from frontline employees, supervisors and upper management. The result: efficient procedures that help reduce personal injuries and operating costs.

WHAT YOU WILL LEARN

- How to recognize and use important safety and health terminology
- JSA's relation to continuous improvement in your organization
- How to identify and communicate the safety and financial benefits of using JSA
- The key requirements for a successful JSA
- How to recognize hazards inherent in task performance and develop solutions and hazard controls
- How to complete a JSA form

WHO WOULD BENEFIT

This course is designed for safety practitioners, safety committee members, safety coordinators, safety specialists, human resources personnel, safety managers, loss control managers and operations managers.

Incident Investigation Training | November 14, 2018

ABOUT THIS COURSE

The SCNSC Incident Investigation course focuses on techniques for gathering complete, accurate and objective incident data, establishing root causes, reporting findings and determining corrective action.
Discussion, demonstrations and exercises cover investigation and interview techniques. Participants learn how to uncover the who, what, why, when and how of each incident, and how to analyze data to prevent injuries, property damage and financial losses.

WHAT YOU WILL LEARN

- How to determine which incidents warrant investigation
- How to use effective investigation and interviewing techniques to gather complete, objective and accurate data
- How to analyze incidents to identify root causes
- The human relations aspects of incident reporting
- What data to include in investigation reports
- Hazard control measures and follow-up

WHO WOULD BENEFIT

This course is designed for all levels of management, safety practitioners, safety committee members and individuals responsible for investigating incidents.
