

# Cybersecurity Summit

Co-hosted with the US Chamber of Commerce and SC Cyber

May 24 – Charleston

## Anticipated Attendance: 250-300

This conference was designed with both small and large businesses in mind. Broadband and information technology are powerful factors impacting reach into new markets and increased productivity and efficiency. However, businesses need a cybersecurity strategy to protect both organizational infrastructure and customer data from growing cybersecurity threats. This event will teach businesses to mitigate cybersecurity risks and to identify and prepare for potential threats. It will also provide a primer on the economic impact of cybersecurity and how it can affect our state's infrastructure.
